Senior frontend engineer

32 years old / nicolasguenin@protonmail.com / +33 6 20 09 10 11

Frontend engineer with 10 years of experience crafting modern, maintainable user interfaces for SaaS platforms, e-commerce, and self-hosted solutions.

I strive to align technical implementation with product and business goals – ensuring codebases reflect real-world needs and deliver lasting value.

Advocate of **SOLID** and **DRY** principles, I follow modern engineering practices like **Test-Driven Development (TDD)** and continuous refactoring. Focused on shipping high-quality code that meets real-world constraints.
